

The Kingston Arts Council developed the Awards for Excellence in the Arts program to realize the following objectives:

- ❖ □ To celebrate and acknowledge excellence in the arts;
- ❖ □ To recognize outstanding community contributions to the arts;
- ❖ □ To encourage and foster the future development and participation in the arts; and,
- ❖ □ To raise community attention to the wide-ranging cultural landscape of our community.

Many partners and individuals have been involved over the past two years of planning these Awards, and have lent their support, expertise and resources to help the Kingston Arts Council realize these objectives.
